# Wrap Up

## ❑ Some Key Messages

- ❑ Adoption of IPv6 is becoming an imperative for us all
- ❑ Staying with IPv4 is possible, but has its own significant risks
- ❑ Adoption of IPv6 is a journey, not an event
- ❑ Rate of adoption is different for everyone
- ❑ Planned adoption is much lower risk than forced adoption
- ❑ Develop a Roadmap for adoption now!
- ❑ Take advantage of normal technology upgrade and refresh cycles to minimise the cost of IPv6 adoption
- ❑ Now is the time to commit to the journey
- ❑ NO REGRETS LATER
